Planning and Design

See our on-line shed builder at:
eaglecollection.net

From small to large,
our professional
sales team is ready to
help you.

All sheds can be
designed to your
desired size.

Stone Pads

Why install a stone pad?

It's just common sense that any structure will last longer with the proper base/foundation. A stone pad acts as a infiltration bed and keeps your new shed floor system nice and dry which also increases the lifespan of your shed.

Delivery

Hassle-Free Set-up

Our sheds are pre-assembled and delivered to your prepared site, or assembled on site in difficult to access situations.

Kits are shrink-wrapped for weather resistance and safer transporting.

Delivery Truck

Shed delivered to your back yard or the location of your choosing
